These maps were created from available public records and existing map sources, not from field surveys. Map features from all sources have been adjusted to achieve a "best fit" registration to the Ownership Parcels map. While great care was taken in this process, maps from different sources rarely agree as to the precise location of geographic features. The relative positioning of map features to one another results from combining different map sources without field "ground truthing".

Conditions:

Note:

The city of Burlington is lead agency on this proposal. Approval of this application is for the harvest of timber only. Any further brush removal, stump removal, grading, etc., is under the city of Burlington jurisdiction. Harvest debris created by this operation may create an "extreme hazard" which requires treatment. WAC 332-24-650 requires that any harvest debris within 100 feet of public roads, or within 200-500 feet of residences or public buildings must be abated. Abatement may be accomplished by burning, chipping, or removing the slash. Please contact Northwest Region fire program personnel regarding questions about this issue. Forest practice rules require reforestation be done if the planned conversion is not completed within 3 years following the timber harvesting.

Before the sale or transfer of land or perpetual timber rights subject to continuing forest land obligations, the seller must notify the buyer of such an obligation on a form titled "Notice of Continuing Forest Land Obligation". The seller and buyer must both sign the "Notice of Continuing Forest Land Obligation" form and send it to the DNR Region Office for retention. This form is available at DNR region offices.

If the seller fails to notify the buyer about the continuing forest land obligation, the seller must pay the buyer's costs related to continuing forest land obligations, including all legal costs and reasonable attorneys' fees incurred by the buyer in enforcing the continuing forest land obligation against the seller.

Failure by the seller to send the required notice to the DNR at the time of sale will be prima facie evidence in an action by the buyer against the seller for costs related to the continuing forest land obligation prior to sale.
