Tom,

I checked with Dave Blake this morning. He has never done any sampling in the Burlington Hill area.

I checked the Northwest Clean Air Agency's database for asbestos complaints dating back to 1996 and there were no complaints from the Burlington Hill area.

As Mark Asmundson suggested yesterday, you might check with the Skagit County Health Department.

Re: Public records request  
Burlington Hill – air pollution control and sampling

Dear Sir or Madam.

Approximately two weeks ago I submitted a request for information under the Washington State Public Records Act, codified at RCW Chapter 42.56. To my knowledge, I have not received any written response. I would ask that you contact me without delay to inform me of the status of this request, preferably in writing.

Thank you for your assistance. I look forward to your reply.

Sincerely,

*Thomas E. Seguire*

HAND DELIVERED JULY 24, 2012 TO MOUNT VERNON ADDRESS

Dear Sir or Madam.

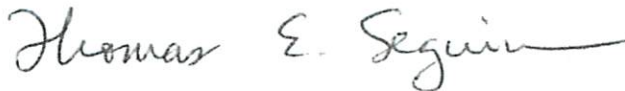

Pursuant to RCW Chapter 42.56, this office is requesting that your office release for inspection and/or copying records in your custody as described in the attached public disclosure form we found on your website. Please note that I have suggested that the records involved may be scanned and e-mailed to me. Alternatively, as my office is just down the street from yours in Mount Vernon, I would come and pick them up when they are available, as opposed to your sending them through the mail. We will be additionally submitting this request through your website/online address.

If there are any questions about the detail of the request please contact me immediately.

We will of course pay for the cost of copying and reproduction if presented with an invoice.

Thank you for your assistance. We look forward to your reply.

Sincerely,

Thomas E. Seguire
